

**Chair**  
**Annarose Lilly**

The legislative district is a critical bridge between the national political party and the electorate. In this capacity, LD28 has cultivated a community of volunteers and delivered impressive voter turnout in a hostile and formidable political environment. This work must continue. As LD28 Chair, I will draw upon my experience from managing cross-functional teams in corporate America to running high-performance vote centers in Maricopa County. With experience in marketing and project management, I promise to communicate, organize, and delegate. My focus will be to foster an environment where new leaders can emerge, and I look forward to the vibrant democracy that we will create together.
