

**Treasurer
James Clancy**

The struggle to maintain the United States as a democratic, progressive society may be the most important in my lifetime. I believe that, principally, our democracy is enhanced by electing progressive people to elected office. Democratic Legislative Districts are critical to this process. Unfortunately, money is a critical element in the election process. Therefore, the role of Legislative District Treasurer is central to election campaigns. I

hope to lend my extensive experience with both political and civil organizations to the success of future Democratic Party campaigns.
